Re: Project Name: The Haynes Units 5&6 Repowering Project
Owner: Los Angeles Department of Water and Power
EPC Bid Date: August 10, 2010 @ 2:00 PM

Subject: Contractor-Assistance
Subcontractor / Supplier Listing / Referrals

Kiewit Power Constructors Co. (Kiewit) will be bidding the project listed above and is requesting sub-bids and quotes from certified Minority Business Enterprises (MBE), Woman Business Enterprises (WBE) and all other business enterprises (OBE).

As requested in the City of Los Angeles Department of Water and Power's Supplier Diversity Program, we are hereby asking for your assistance in seeking-out firms to participate on this project by providing us with a listing of certified MBES, WBEs, and OBEs.

This project involves the engineering, procurement and construction (EPC) of the Balance of Plant (BOP) facilities and installation of a 600 MW simple cycle generating facility to replace Units 5 & 6 at the Haynes Generating Station, in Long Beach, California for the City of Los Angeles, Department of Water and Power (LADWP).

We are seeking sub-bids from MBE, WBE, and OBE subcontractors, material contractors and material and/or equipment suppliers for the areas of work listed on (but not limited to) page 2 of this letter. Please forward any lists you may have for firms that may be interested in bidding to us on this project to our Santa Fe Springs, California office by fax at (562) 946-3823.

Responsive subcontractors and material contractors will be required to demonstrate their ability to provide acceptable bonding and insurance. Subcontractors performing onsite work shall perform their work with union labor and possess a valid California contractor's license.

Kiewit intends to conduct itself in good faith with all MBE, WBE, and OBE firms regarding participation on this project. For further information or questions regarding this project, requirements of the proposal, licensing, insurance or bonding or to discuss your firm's specialty or scope of supply, please contact Jatin Raina at (562) 946-1816.

Sincerely,
KIEWIT POWER CONSTRUCTORS CO.

Catherine Valencia
Estimating Coordinator
